UK IPO

Wellnex continues to progress the proposed dual listing on the AIM market on the London Stock Exchange (LSE), with all work streams at final stages. Wellnex anticipates publishing the AIM Admission Document early next week with the commencement of trading approximately 3 business days thereafter. A further announcement will be made once the AIM Admission Document has been published.

While completion of the proposed dual listing on the LSE remains, inter alia, subject to finalisation of key workstreams and consequently completion of the AIM listing is not guaranteed, it will recapitalise the business, removing the Pain Away deferred consideration and convertible note debt, leaving the Company with a stronger balance sheet and high-margin growth business.

Wellnex has extended the deferred consideration for the Pain Away acquisition to match with the proposed dual listing on the LSE, with the payment due on 21 March 2025.

Commenting on the progress, Joint Managing Director Zack Bozinovski said: *“We continue to see growth across the whole business in both brands and IP licensing and we are confident that this will continue, which will build on the profitability of the business. This will also be strengthened by the recapitalizing of the balance sheet and the removal of c. \$13 million in liabilities with the expected dual listing on the AIM market of the LSE.”*

This announcement was authorised for release to the market by the board of Wellnex Life Limited.
